Mechanisms of Ageing and Development
112 (1999) 245–247

mechanisms of ageing and development

www.elsevier.com/locate/mechagedev

Subject index of volume 112

Ageing; Satellite cells; Levator ani; Rat **112**, 99

Aging; Chimeric mice; Cytokines; Differentiation **112**, 113

Aging; Diabetes; Glucoregulation; Lipids **112**, 185

Aging; Immunity; SENIEUR protocol; Nutrition **112**, 43

Aging; Longevity; Fatty acids; Unsaturation; Lipid peroxidation; Heart **112**, 169

Aging; Melatonin; LHRH; Gonadotropins; Prolactin **112**, 75

Aging; Myelopoiesis; Senescence-accelerated (SAM) mice; Lipopolysaccharide (LPS); Cell cycle; Colony stimulating activity (CSA); Colony inhibitory activity (CIA) **112**, 153

Aging; NK cells; Interferon **112**, 197

Aging; Rat; T cell; Calcineurin; CaMK-IV **112**, 59

Aging; Sudden senescence syndrome; Cell proliferation; Cell senescence **112**, 233

Aluminium; Alzheimer's disease; ATPase; Membrane fluidity; Mitochondria; Oxidative phosphorylation **112**, 27

Alzheimer's; Amyloid; Neurotoxicity; GFAP; Astrocytes; Microglia; Apoptosis **112**, 135

Alzheimer's disease; Aluminium; ATPase; Membrane fluidity; Mitochondria; Oxidative phosphorylation **112**, 27

Amyloid; Alzheimer's; Neurotoxicity; GFAP; Astrocytes; Microglia; Apoptosis **112**, 135

Apoptosis; Alzheimer's; Amyloid; Neurotoxicity; GFAP; Astrocytes; Microglia **112**, 135

Astrocytes; Alzheimer's; Amyloid; Neurotoxicity; GFAP; Microglia; Apoptosis **112**, 135

ATPase; Aluminium; Alzheimer's disease; Membrane fluidity; Mitochondria; Oxidative phosphorylation **112**, 27

Auditory brain stem; Cochlea; Hamster; Intermediolateral nucleus; NADPH-diaphorase; Neuronal nitric oxide synthase; *Phodopus sungorus*; Spinal cord; Superior olivary complex **112**, 125

Calcineurin; Aging; Rat; T cell; CaMK-IV **112**, 59

CaMK-IV; Aging; Rat; T cell; Calcineurin **112**, 59

Cell cycle; Aging; Myelopoiesis; Senescence-accelerated (SAM) mice; Lipopolysaccharide (LPS); Colony stimulating activity (CSA); Colony inhibitory activity (CIA) **112**, 153

Cell proliferation; Sudden senescence syndrome; Aging; Cell senescence **112**, 233

Cell senescence; Sudden senescence syndrome; Aging; Cell proliferation **112**, 233

Cellular aging; Periodontal ligament cells; Plasminogen activator; Mechanical stress **112**, 217

Chimeric mice; Aging; Cytokines; Differentiation **112**, 113

PII: S0047-6374(99)000113-X

Cochlea; Auditory brain stem; Hamster; Intermediolateral nucleus; NADPH-diaphorase; Neuronal nitric oxide synthase; *Phodopus sungorus*; Spinal cord; Superior olivary complex **112**, 125

Colony inhibitory activity (CIA); Aging; Myelopoiesis; Senescence-accelerated (SAM) mice; Lipopolysaccharide (LPS); Cell cycle; Colony stimulating activity (CSA) **112**, 153

Colony stimulating activity (CSA); Aging; Myelopoiesis; Senescence-accelerated (SAM) mice; Lipopolysaccharide (LPS); Cell cycle; Colony inhibitory activity (CIA) **112**, 153

Cytokines; Chimeric mice; Aging; Differentiation **112**, 113

Diabetes; Aging; Glucoregulation; Lipids **112**, 185

Differentiation; Chimeric mice; Aging; Cytokines **112**, 113

DNA fragmentation; Rats; Hypoxia **112**, 5

Extreme old age; Non-Gomperzian aging **112**, 89

Fatty acids; Longevity; Aging; Unsaturation; Lipid peroxidation; Heart **112**, 169

GFAP; Alzheimer's; Amyloid; Neurotoxicity; Astrocytes; Microglia; Apoptosis **112**, 135

Glucoregulation; Aging; Diabetes; Lipids **112**, 185

Gonadotropins; Aging; Melatonin; LHRH; Prolactin **112**, 75

Hamster; Auditory brain stem; Cochlea; Intermediolateral nucleus; NADPH-diaphorase; Neuronal nitric oxide synthase; *Phodopus sungorus*; Spinal cord; Superior olivary complex **112**, 125

Heart; Longevity; Aging; Fatty acids; Unsaturation; Lipid peroxidation **112**, 169

Hypoxia; Rats; DNA fragmentation **112**, 5

Immunity; Aging; SENIEUR protocol; Nutrition **112**, 43

Interferon; NK cells; Aging **112**, 197

Intermediolateral nucleus; Auditory brain stem; Cochlea; Hamster; NADPH-diaphorase; Neuronal nitric oxide synthase; *Phodopus sungorus*; Spinal cord; Superior olivary complex **112**, 125

Levator ani; Satellite cells; Ageing; Rat **112**, 99

LHRH; Aging; Melatonin; Gonadotropins; Prolactin **112**, 75

Lipid peroxidation; Longevity; Aging; Fatty acids; Unsaturation; Heart **112**, 169

Lipids; Aging; Diabetes; Glucoregulation **112**, 185

Lipopolysaccharide (LPS); Aging; Myelopoiesis; Senescence-accelerated (SAM) mice; Cell cycle; Colony stimulating activity (CSA); Colony inhibitory activity (CIA) **112**, 153

Longevity; Aging; Fatty acids; Unsaturation; Lipid peroxidation; Heart **112**, 169

Mechanical stress; Periodontal ligament cells; Plasminogen activator; Cellular aging **112**, 217

Melatonin; Aging; LHRH; Gonadotropins; Prolactin **112**, 75

Membrane fluidity; Aluminium; Alzheimer's disease; ATPase; Mitochondria; Oxidative phosphorylation **112**, 27

Microglia; Alzheimer's; Amyloid; Neurotoxicity; GFAP; Astrocytes; Apoptosis **112**, 135

Mitochondria; Aluminium; Alzheimer's disease; ATPase; Membrane fluidity; Oxidative phosphorylation **112**, 27

Myelopoiesis; Aging; Senescence-accelerated (SAM) mice; Lipopolysaccharide (LPS); Cell cycle; Colony stimulating activity (CSA); Colony inhibitory activity (CIA) **112**, 153

NADPH-diaphorase; Auditory brain stem; Cochlea; Hamster; Intermediolateral nucleus; Neuronal nitric oxide synthase; *Phodopus sungorus*; Spinal cord; Superior olivary complex **112**, 125

Neuronal nitric oxide synthase; Auditory brain stem; Cochlea; Hamster; Intermediolateral nucleus; NADPH-diaphorase; *Phodopus sungorus*; Spinal cord; Superior olivary complex **112**, 125

Neurotoxicity; Alzheimer's; Amyloid; GFAP; Astrocytes; Microglia; Apoptosis **112**, 135

NK cells; Aging; Interferon **112**, 197

Non-Gomperzian aging; Extreme old age **112**, 89

Nutrition; Immunity; Aging; SENIEUR protocol **112**, 43

Oxidative phosphorylation; Aluminium; Alzheimer's disease; ATPase; Membrane fluidity; Mitochondria **112**, 27

Periodontal ligament cells; Plasminogen activator; Cellular aging; Mechanical stress **112**, 217

Phodopus sungorus; Auditory brain stem; Cochlea; Hamster; Intermediolateral nucleus; NADPH-diaphorase; Neuronal nitric oxide synthase; Spinal cord; Superior olivary complex **112**, 125

Plasminogen activator; Periodontal ligament cells; Cellular aging; Mechanical stress **112**, 217

Prolactin; Aging; Melatonin; LHRH; Gonadotropins **112**, 75

Rat; Aging; T cell; Calcineurin; CaMK-IV **112**, 59

Rat; Satellite cells; Ageing; Levator ani **112**, 99

Rats; Hypoxia; DNA fragmentation **112**, 5

Satellite cells; Ageing; Levator ani; Rat **112**, 99

Senescence-accelerated (SAM) mice; Aging; Myelopoiesis; Lipopolysaccharide (LPS); Cell cycle; Colony stimulating activity (CSA); Colony inhibitory activity (CIA) **112**, 153

SENIEUR protocol; Immunity; Aging; Nutrition **112**, 43

Spinal cord; Auditory brain stem; Cochlea; Hamster; Intermediolateral nucleus; NADPH-diaphorase; Neuronal nitric oxide synthase; *Phodopus sungorus*; Superior olivary complex **112**, 125

Sudden senescence syndrome; Aging; Cell proliferation; Cell senescence **112**, 233

Superior olivary complex; Auditory brain stem; Cochlea; Hamster; Intermediolateral nucleus; NADPH-diaphorase; Neuronal nitric oxide synthase; *Phodopus sungorus*; Spinal cord **112**, 125

T cell; Aging; Rat; Calcineurin; CaMK-IV **112**, 59

Unsaturation; Longevity; Aging; Fatty acids; Lipid peroxidation; Heart **112**, 169
